

Hi my name is Denisha Naomi Jackson.

I am a Registered Early Childhood Educator. I have always had a passion working with all children. It is my pleasure to be apart of St. Bartholomew's Children Centre.

When I started at St. Bartholomew's Children's Centre, I began as a volunteer for the summer program. I also had the opportunity to enhance my skills through Co-op. This journey has allowed me to obtain my certificate for placement in high school.

The overall experience being in the childcare field has truly inspired me to further my education to develop a deeper understanding of child development.

I then attended Sir Sandford Fleming College where I spent two years learning and training for the preparation to be mentally, physically, and emotionally an effective Educator.

My goal has always been to challenge myself to ensure I am UpToDate with the required knowledge to commit to quality care.

I take pride in my work and attending webinars for ongoing training. I enjoy building relationships, planning and implementing program plans. I can adapt to any environment to support every child's individual needs. I work well with colleagues, I am compassionate, dependable, and hard-working. It is also, my duty to ensure a healthy, safe and hazard free environment that promotes positive development.

I look forward to growing as a Registered Early Childhood Educator with this Centre. It is a place of comfort according to their motto close to your home close to your heart. St. Bartholomew's Children Center is a place to learn and a place to start.

Kind Regards,

Denisha Naomi
